

Student Education Plan Policy

Adopted: July 18, 2022

Revised:

Policy

Career Academy of Utah (the “School”) understands the importance of personal education planning for its students. Personal education planning is a cooperative effort involving students, parents/guardians, and educators. It focuses on the students’ individual needs and is essential at the elementary and secondary school levels.

The School shall implement an individual learning plan (also known as an SEP) for its K-6 students and a plan for college and career readiness (also known as an SEOP) for its students in grades 7-12 following Utah law.

The Executive Director shall establish administrative procedures to help the School implement individual learning plans and plans for college and career readiness consistent with Utah Code § 53E-2-304(2)(b) and, if the School receives Comprehensive Counseling and Guidance Program funds, Utah Administrative Code Rule R277-462.
